

SOLYX® Glass Finishes SGV-6613 Frosted Strie

SimGlas: SGV-6613
Frosted Strié

Product Details

SOLYX® SGV-6613 Frosted Strie is a frosty translucent, embossed film with a glasslike clear random lines pattern. An effective privacy film that obscures direct visibility and allows excellent light transmission. Recommended for application to interior glass (inside surface). Made of durable PVC with a frost embossed surface and a glasslike semi clear thatch pattern. Total nominal thickness is between 3 and 4 mil. Supplied with a silicone liner, which protects the clear, pressure-sensitive adhesive, and applied using the same tools and techniques for window films.

Product Description

SOLYX® SGV-6613 Frosted Strie is a frosty translucent, embossed film with a glasslike clear random lines pattern. An effective privacy film that obscures direct visibility and allows excellent light transmission.

Specifications
