Product Details

SOLYX® SX-2097 Magnetic White Dry Erase for Glass is a glossy white opaque film with a ferrous content to which magnets can stick. It is coated with a premium dry erase surface and has a silicone-coated, pressure-sensitive adhesive for dry installation. This film is recommended for application to all interior glass surfaces. The color of the film surface that adheres to the glass is black. It is ideal for decorative or architectural applications where a dry erase surface with a magnetic capability is desired.

Flammability Rating

This product meets ASTM E84 and is classified as Class A as defined in NFPA 101, Life Safety Code®.

LEED Credit EQ 4.1 Low Emitting Materials, Adhesives & Sealants

This product has zero VOC content according to 40 CFR 59, Subpart D (EPA method 24).

Installation and Warranty

Installation

Installation should be in accordance with the manufacturer's installation instructions. It is applied using the same methods used for installing films by dry application. No wetting agent is recommended as condensation left behind the film will cause the film to lift.

NOTE: For best performance – Immediately after installation, thoroughly clean the dry erase surface with a glass cleaner and soft microfiber cloth.

Warranty

This SOLYX® product will be free from defects in material and manufacture for a period of five (5) years from the date of installation. See warranty information for specific details.
