### Product Details

SOLYX® SX-C378 Alternating Stripes is a polyester film with alternating etch and white stripes that run vertically along the length of the roll. The stripes are 3.5mm wide with clear 2mm spacing between them. Made of durable, optically clear polyester, it is supplied with a silicone coated liner which protects the clear, pressure-sensitive adhesive. This film is recommended for application to interior and exterior glass (inside surface) and is ideal for decorative or architectural applications.

### Flammability Rating

This product meets ASTM E84 and is classified as Class A as defined in NFPA 101, Life Safety Code®.

### LEED Credit EQ 4.1 Low Emitting Materials, Adhesives & Sealants

This product has zero VOC content according to 40 CFR 59, Subpart D (EPA method 24).

### Installation and Warranty

#### Installation

Installation should be in accordance with manufacturer's installation instructions. This film is applied using the same tools and techniques used for window tinting films.

#### Warranty

This SOLYX® product will be free from defects in material and manufacture for a period of five (5) years from the date of installation. See warranty information for specific details.
