| Solar Energy Absorbed | 25% |
| Infra-Red Transmission | 70% |

Product Construction

Face Film

2 mil SOLYX polyester

Adhesive

Clear, Pressure-sensitive

Release Liner

Silicone

Product Details

SOLYX: SXJ-0582 Matte Dual Dot Gradient is a polyester film with a white matte translucent dual fading gradient in a small dot design pattern. Ideal for direct visibility control. This film is designed for application to interior glass, single or double pane and exterior facing glass. Made of durable Polyester! Perfect for privacy, decorative or architectural applications. Manufactured with a silicone liner, which protects the clear, pressure-sensitive adhesive, and applied using the same tools and techniques for window films.

The dots in this film are larger than the dots in the SXJ-0581 Fine dot gradient
