Usage	Interior
Available Width(s)	44"
Full Roll Length	50 linear feet
Thickness	12mil
Visible Light Transmission	3%
UV Transmission	0%
Infrared Transmission	4%

Product Construction

Face Film

12 mil Complex Construction

Adhesive

SOLYX® DryApply, Clear, Pressure-Sensitive

Release Liner

Paper

Product Details

SOLYX® SXN-1730 Banana DryApply is made from 100% kozo with large pieces of banana bark as added inclusions. Kozo, which is light, crisp, and semi-translucent, is the inner bark of the mulberry tree which is harvested without harming the tree. The banana tree inclusions are taken from the tree after the banana harvest is completed when the tree would normally be discarded without any other use. The inclusions of the banana bark are random so each foot of film will differ. This film is ideal for privacy, decorative, or architectural applications.

Flammability Rating

This product meets ASTM E84 and is classified as Class A as defined in NFPA 101, Life Safety Code®.

LEED Credit EQ 4.1 Low Emitting Materials, Adhesives & Sealants

This product has zero VOC content according to 40 CFR 59, Subpart D (EPA method 24).

Installation and Warranty

Installation

Installation should be in accordance with the manufacturer's installation instructions. This film features SOLYX® "DryApply" technology - simply remove the protective backing and squeegee directly onto the glass surface dry. Do not use any solutions to install this product.

Warranty

This SOLYX® product will be free from defects in material and manufacture for a period of five (5) years from the date of installation. See warranty information for specific details.
